

# Where Can We Help You Go Beyond?

**Omniseal Solutions**  
SAINT-GOBAIN

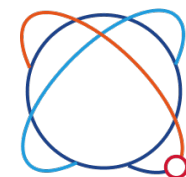

**Polymer seals, metal seals, composites & polyimide materials** in the turbines improve engine performance.

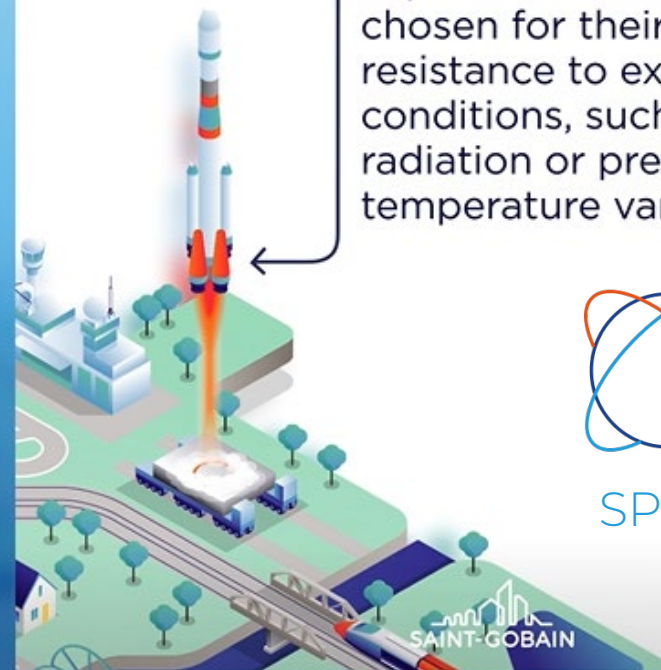

AVIATION

**Seals, bearings and composite materials** used on satellites and exploration vehicles are chosen for their resistance to extreme conditions, such as radiation or pressure and temperature variations.

SPACE

**BEYOND**  
the boundaries of possible

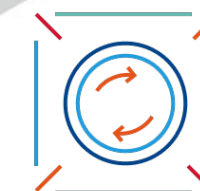

**Polymer seals & materials** are used in wearable/portable insulin pumps by diabetic patients. A tighter seal significantly reduces and prevents leakage.

LIFE  
SCIENCE

The suspension **seals** improve cyclists' comfort.
