FOR IMMEDIATE RELEASE

### **Omniseal Solutions™ Announces Distribution Partnership With TriStar Plastics Corp. For Meldin® Stock Shape Polyimides**

**Garden Grove, Calif. (May 20, 2022)** – Omniseal Solutions™, a design engineering and manufacturer of precision sealing solutions and materials for over 60 years, announces that they have entered into a strategic distribution agreement with TriStar Plastics Corp. for their Meldin® stock shape polyimide materials within the North American market.

TriStar Plastics Corp. provides engineering, custom fabrication, and manufacturing of high-performance plastics and self-lubricating bearing materials. The company's capabilities include component design, material selection, prototype, production, manufacturing, and surface modification. Their principal location is in Shrewsbury, Massachusetts, with additional sales and distribution centers in Denver, North Carolina; Yorba Linda, California; and Hoffman Estates, Illinois.

*“TriStar has been our North American distributor for Rulon® fluoropolymers for more than two decades, successfully promoting and developing the sales of these solutions. TriStar offers fast turnaround times, thereby creating a better customer experience. Their team of experienced engineers combine design skills with an extensive product profile to provide solutions for the most challenging applications. Their local presence across the territory, as well as their stocking and machining capability, complement Omniseal Solutions’ market reach, bringing a high level of service to local customers.”* says Helene Petregne, Business Manager - Industrial & Distribution.

Richard Cedrone, CEO of TriStar Plastics Corp., said, “*The addition of Meldin<sup>®</sup> polyimides, a family of high-performance polymer solutions, will enhance our engineering approach to new business development and complement our dynamic growth of the Rulon<sup>®</sup> solution in North America. The distribution partnership we have built over the years with Omniseal Solutions<sup>™</sup> exemplifies the trust they have put in us to grow the Meldin<sup>®</sup> line and extend its reach in specialized high temperature applications.*”

**About Omniseal Solutions<sup>™</sup>**

Omniseal Solutions<sup>™</sup> is a global engineering leader with over 65 years of historical legacy, relentlessly dedicated to the design and manufacture of precision sealing and material solutions that protect critical applications in the most demanding environments and passionately driven to push ***Beyond the Boundaries of Possible<sup>®</sup>***.

**About Meldin<sup>®</sup> Polyimides**

Meldin<sup>®</sup> polyimide material exhibits high dimensional stability at high temperatures and longer life at higher loads and speeds. With Omniseal Solutions’ manufacturing expertise, total control of the process from powder to parts is guaranteed. Their solutions include bearings, wear components and piston rings, including custom shapes, rods, sheets and tubes. These polymer solutions are found in a multitude of industries such as aviation, industrial, semiconductor, space, and life science.
